Executive Director

Robert L. Morgan

State Engineer

1636 West North Temple, Suite 220

Salt Lake City, Utah 84116-3156

801-538-7240

December 20, 1991

Mr. Phillip Palmer  
Price River Water District  
P. O. Box 903  
Price, UT 84501

Dear Mr. Palmer:

Re: Treatment Plant-Metering

On May 28, 1991 Mark Page, Price Regional Engineer wrote to you concerning the installation of a totalizing meter on the treated water line at your water treatment plant. Mark requested that the meter be installed as soon as possible in order to keep an accurate record of the water treated and used by your plant.

Mark recently informed this office the meter had not been installed nor does it appear that plans have been made for its installation. Therefore, in accordance with Section 73-5-4, Utah Code Annotated, 1953, As Amended, you are hereby **ordered** to install a totalizing meter on the treated water line of your water treatment plant.

The type of meter to be installed should be reviewed with Mr. Page to insure it will meet the water measurement needs at that location. **The meter is to be installed before May 1, 1992 or an order will be issued forbidding your use of water and your diversion will be closed and locked until such time as the meter is installed.**

If you have any questions concerning this order, please contact Mark Page at 637-1303 or Lee H. Sim, Directing Engineer for Distribution at 538-7380.

Sincerely,

Robert L. Morgan, P.E.  
State Engineer
